

June 26, 2009

To: Members of the United States Senate and House of Representatives
and selected members of the Administration

As we conclude this [Interfaith Week of Prayer for Health Care](#), we are keenly aware that we are on the cusp of an unprecedented opportunity to create a health care future that includes everyone and works well for all of us. Those of us in faith communities believe that such a future must be shaped by the sacred bonds of our common humanity and reflect faithful stewardship of our abundant health care resources.

When that future moves from vision to reality, one in six children and non-elderly adults in the United States will no longer have to live sicker and risk dying younger because they cannot get needed health care. Medical expenses will no longer cause financial ruin for families, institutions, businesses, and governments. All of us will have the health care we need regardless of our age, income, race, gender, pre-existing conditions, sexuality, or place of residence.

In the United States, we are blessed with the talents, wisdom and abundant resources necessary to meet each other's needs – including the health care needs of all. What we lack are the moral vision to guarantee health care for everyone and the political will to insist that we use our resources effectively, efficiently and equitably.

People of faith are working to change that. We know that social change happens over time as our hearts and minds are transformed and our sensitivities are moved from self-interests to the common good. When we are at our best, people of faith are at the heart of such transformation.

Toward that end, we commit ourselves to promoting values that are important to us and to our health care reform discussions – values like community, compassion, concern for those who are most vulnerable, shared responsibility, and faithful stewardship. Inspired by these shared values from our sacred texts, we will keep alive a vision where health, wholeness and human dignity are our priority. And we will measure legislative proposals by their capacity to move us toward a health care future that is:

- **Inclusive**, offering everyone, regardless of circumstance, access to a solid system of health care.
- **Accessible**, eliminating all barriers to that system, thereby enabling all of us to participate in and contribute to the life we share together.
- **Affordable**, ensuring that we create a modern system that uses our abundant health care resources effectively, efficiently, and equitably.
- **Accountable**, calling for shared responsibility across all sectors of our society, working in partnership on behalf of the common good.

These values arise from “**A Faith-Inspired Vision of Health Care**” (*printed below*). To date, the undersigned 75 national, regional and state organizations have committed to this Vision, joined by an additional 2000+ individuals and local communities of faith. Believing that health care for all is a moral imperative, we commit ourselves to moving this vision to reality in 2009.

The complete list of signers is posted on the website of Faithful Reform in Health Care at <http://www.faithfulreform.org/>.

“A Faith-Inspired Vision of Health Care”

As people of faith, we envision a society where each person is afforded health, wholeness, and human dignity.

That vision embraces a system of health care that is inclusive... accessible... affordable... and accountable.

Vision ~ Inclusive: Health care is a shared responsibility that is grounded in our common humanity. In the bonds of our human family, we are created to be equal. We are guided by a divine will to treat each person with dignity and to live together as an inclusive community. Affirming our commitment to the common good, we acknowledge our enduring responsibility to care for one another. As we recognize that society is whole only when we care for the most vulnerable among us, we are led to discern the human right to health care and wholeness. Therefore, we are called to act with compassion by sharing our abundant health care resources with everyone.

Vision ~ Affordable: Health care must contribute to the common good by being affordable for individuals, families and society as a whole.

We believe that in the sacred act of creation we are endowed with the talents, wisdom and abundant resources necessary to meet the needs of one another, including the health care needs of all. Therefore, in our calling to be faithful stewards, we understand our responsibility to use our health care resources effectively, to administer them efficiently, and to distribute them with equity.

Vision ~ Accessible: All persons should have access to health services that provide necessary care and contribute to wellness. We believe humanity is sacred and that all persons should benefit from those actions which contribute to our health and wholeness. Therefore, we are called to act with justice and love, to ensure that all of us have access to the health care we need in order to live out the fullness of our potential both as individuals and as contributing members of our society. We must work together to identify and overcome all barriers to and disparities in such care.

Vision ~ Accountable: Our health care system must be accountable, offering a quality, equitable and sustainable means of keeping us healthy as individuals and as a community. We believe that as spiritual and sacred vessels, we are responsible for the care of our bodies to the best of our ability and for the care of one another regardless of individual circumstances. Therefore, individuals, families, governments, businesses, and the faith community are called to work in partnership for a system that ensures fully-informed, timely, quality and safe care that treats body, mind and spirit.

(“A Faith-Inspired Vision of Health Care” was created by the members of Faithful Reform in Health Care, a national interfaith coalition of faith communities and individuals working for compassionate, comprehensive and sustainable health care reform.)

FAITHFUL REFORM IN HEALTH CARE

We, the undersigned, commit to raising “A Faith-Inspired Vision of Health Care” and to working for a health care future that includes everyone and works well for all of us.
