

ELEVATING FAITH-INSPIRED VOICES IN SUPPORT OF
AFFORDABLE QUALITY HEALTH CARE FOR ALL

*Let us realize the arc of the moral universe is long
but it bends toward justice.*

Rev. Dr. Martin Luther King, Jr.
Atlanta, GA ~ August 16, 1967

January 12, 2010

**An Open Letter
to President Barack Obama and to
Members of the United States Senate and House of Representatives**

At this historic moment in a century-long effort to make comprehensive and compassionate health care reform a reality in the United States, members of the Faithful Reform in Health Care coalition are praying for our nation and for you – our elected leaders. We offer these prayers recognizing that the arc of the moral universe does not bend toward justice on its own. It bends only through the transformation of our hearts and minds as we commit ourselves to working for the common good... to building a sense of community that offers blessings for all... and to acting upon our concern for those who are most vulnerable.

People of faith have worked for decades in support of quality and affordable health care for all because we see it as a moral calling – and because we truly believe that our nation is endowed with the talents, wisdom and sufficient resources necessary to meet the health care needs of one another. In these critical hours of deliberation, from now until a health care bill is signed, Faithful Reform in Health Care and its members will lift you in prayer around a moral vision for health care reform that guarantees affordable health care for everyone and lays the foundation for sharing our abundant health care resources in a spirit of generosity.

Through our *Interfaith Virtual Vigil of Prayer, Hope, and Action*, we will offer these prayers every day until health care reform is signed into law. We know that what is broken in U.S. health care cannot be repaired in one sweeping piece of legislation. At the same time, we believe that the first steps toward transformation can be addressed in the pending deliberations over the shape of our health care future. We will pray that you take these steps with courage and in hope.

We applaud the actions and leadership that have brought us to this historic moment, and now pray that you will move forward with a vision that will bend the arc of our health care future toward justice. While our individual organizations support a variety of policy priorities and strategies for incorporating our faith values in legislation, there is broad consensus around provisions that move us toward a more just system of health care that is inclusive, affordable, accessible, and accountable.

We call upon you and your colleagues to support provisions that will make the system of health care in the United States more:

- Affordable, ensuring that we create a modern system that uses our abundant health care resources effectively, efficiently, and equitably.
 - We urge you to move toward affordability standards that truly protect low-moderate income workers and their families from premium costs, co-pays, deductibles, and out-of-pocket expenses that compromise other basic needs.
 - We support the establishment of public insurance that makes guaranteed affordable non-profit insurance available to those who cannot access the large group market.
 - We support the provision of adequate premium subsidies for all individuals and families up to 400% of the federal poverty level, coupled with reasonable limits on annual out-of-pocket expenses including co-pays and deductibles.

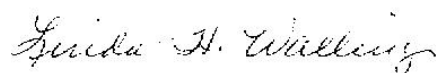

- Inclusive, offering everyone, regardless of circumstance, access to a solid system of health care.
 - We support the expansion of Medicaid to all individuals under age 65 with incomes up to 150% of the federal poverty level.
 - We urge you to remove the five-year bar that restricts Medicaid eligibility for legal immigrants, and to remove any restriction that prohibits undocumented persons from purchasing health insurance in the exchange.
 - We support the inclusion of all immigrant children and pregnant women, regardless of immigration status, in eligibility for Medicaid.

- Accessible, eliminating all barriers to that system, thereby enabling all of us to participate in and contribute to the life we share together.
 - We support provisions that prohibit exclusions for pre-existing conditions and eliminate underwriting based on health status, age, gender or occupation.

- Accountable, calling for shared responsibility across all sectors of our society, working in partnership on behalf of the common good.
 - We support provisions that improve the quality of health care delivery.
 - We support provisions that hold the health insurance industry accountable to the needs of the persons whom they serve.

In closing, I commend to you “A Faith-Inspired Vision of Health Care” (attached) which has been signed by nearly 200 organizations and over 4000 individual people of faith. In addition, I remind you that through the Interfaith Virtual Vision of Prayer, Hope, and Action, people of faith throughout the United States will be praying for you and our nation in the days ahead.

Respectfully,

Rev. Linda Hanna Walling
Executive Director

"A Faith-Inspired Vision of Health Care"

As people of faith, we envision a society where each person is afforded health, wholeness, and human dignity.

That vision embraces a system of health care that is inclusive... accessible... affordable... and accountable.

Vision ~ Inclusive: Health care is a shared responsibility that is grounded in our common humanity. In the bonds of our human family, we are created to be equal. We are guided by a divine will to treat each person with dignity and to live together as an inclusive community. Affirming our commitment to the common good, we acknowledge our enduring responsibility to care for one another. As we recognize that society is whole only when we care for the most vulnerable among us, we are led to discern the human right to health care and wholeness. Therefore, we are called to act with compassion by sharing our abundant health care resources with everyone.

Vision ~ Affordable: Health care must contribute to the common good by being affordable for individuals, families and society as a whole. We believe that in the sacred act of creation we are endowed with the talents, wisdom and abundant resources necessary to meet the needs of one another, including the health care needs of all. Therefore, in our calling to be faithful stewards, we understand our responsibility to use our health care resources effectively, to administer them efficiently, and to distribute them with equity.

Vision ~ Accessible: All persons should have access to health services that provide necessary care and contribute to wellness. We believe humanity is sacred and that all persons should benefit from those actions which contribute to our health and wholeness. Therefore, we are called to act with justice and love, to ensure that all of us have access to the health care we need in order to live out the fullness of our potential both as individuals and as contributing members of our society. We must work together to identify and overcome all barriers to and disparities in such care.

Vision ~ Accountable: Our health care system must be accountable, offering a quality, equitable and sustainable means of keeping us healthy as individuals and as a community. We believe that as spiritual and sacred vessels, we are responsible for the care of our bodies to the best of our ability and for the care of one another regardless of individual circumstances. Therefore, individuals, families, governments, businesses, and the faith community are called to work in partnership for a system that ensures fully-informed, timely, quality and safe care that treats body, mind and spirit.

("A Faith-Inspired Vision of Health Care" was created by the members of Faithful Reform in Health Care, the largest national coalition of faith organizations and individuals working for compassionate, comprehensive and sustainable health care reform in the United States.)

“A Faith-Inspired Vision of Health Care”

We, the undersigned, commit to raising “A Faith-Inspired Vision of Health Care” and to working for a health care future that includes everyone and works well for all of us.
